SERVICETEAM WE'LL KEEP YOU FARMING.

CASE IH
AGRICULTURE
FOR THOSE WHO DEMAND MORE.

BETTER RESULTS WITH MINIMUM EFFORT

Increasingly popular and affordable, Precision Farming equipment is designed to obtain superior results with less effort – whether you're using the latest positioning technology or intelligent guidance systems. At Case IH, we've harnessed this potential with a wide selection of AFS® solutions that drive your performance in 4 main areas:

COMFORT

Enjoy a smoother ride with leading guidance systems and correction signals

PRODUCTIVITY

Optimise your land usage with the latest yield mapping

EFFICIENCY

Enhance your performance with advanced farm management solutions

ECONOMY

Reduce your crop inputs with variable rate application and section control

WHY OPT FOR AFS RTK+ KEEP YOUR AFS® EQUIPMENT INSTANTLY CONNECTED ALL YEAR ROUND

Europe's leading network, AFS RTK+ (Real Time Kinematic) delivers reliable 1.5 cm pass-to-pass and 2.5 cm year after year accuracy across an array of applications:

- Row crops
- Tramlines
- Guidance of planters
- Field levelling
- Surface creation
- Drainage

What are the advantages of AFS RTK+ over CenterPoint™ RTX Fast?

	CenterPoint™ RTX Fast	AFS RTK+
Convergence time	<5 min	<1 min
Pass to pass	2.5 cm	1.5 cm
Repeatability year to year	3.8 cm	2.5 cm
Direct Support from service supplier	No	Yes
Performance under trees	Average	Good

ASSISTED STEERING

THE IDEAL SOLUTION FOR OPTIMAL ACCURACY

EZ-PILOT™ PRO

YOUR FIRST ASSISTED STEERING

The EZ-Pilot™ Pro solution (Nav900, Steering Wheel, Platform Kit) is compatible with the **AFS® Pro 700**.

- Easy to install with the Nav 900 with less cabling
- Easy accuracy guidance across tractors and combines
- Machines can be engaged in reverse for NextSwath™ (max. 15 secs)

Why not upgrade to the Accuguide™ Motor Drive system to benefit from extra features such as full reverse, slow speed, better line acquisition, and NextSwath™ automatic turn*.

*Unlock required

AUTOPILOT MOTOR DRIVE™

THE NEW GENERATION ASSISTED STEERING SOLUTION

Easy to install and use, the Autopilot Motor Drive combines the proven **high-torque SAM200 Electric Steering Wheel** with the high-performing **NAV900**, which offers T3™ terrain compensation for best-in-class steering accuracy.

- Easy access to all instrument panels
- No decrease in leg room in cab
- Unrestricted manual steering
- Signal more reliable with the NAV900

Compatible Products

XCN-1050™

AGXTEND

EXPECT MORE

AGXTEND

AGXTEND is the leading innovative technologies platform dedicated to agriculture. The new product range provides best-in-class technologies for all farming applications and includes sensors, a revolutionary environment-friendly herbicide and smart app. **Read more below.**

CROXPLOER

OPTIMISE YOUR NITROGEN FERTILIZER APPLICATION

At the cutting-edge of precision technology, Case IH has launched **CropXplorer** to reduce your costs, improve your yield and optimise your crop protein content. The advanced optical sensors determine the best application rate based on your crop chlorophyll content, biomass and exclusive algorithms.

WHY CHOOSE CROXPLOER?

- Active light source for night and day use
- Compatible with any tractor and most fertilizer applicators
- Up to 500 measurements per second
- Close to plants for highly accurate measurements
- No calibration curves

FARMXTEND

YOUR SMART WEATHER APP

The FarmXtend app features 3 smart sensors to obtain highly accurate field-weather data, so **you can reduce your inputs** by determining the best spraying window and disease pressure.

- **WeatherXact PLUS:** Measure soil temperature and humidity at 1 meter high, at 2 soil depths and at crop level.
- **RainXact PLUS:** Measure level of precipitation.
- **SoilXact PLUS:** Measure soil moisture and temperature.

FIND THE PRECISION FARMING PACKAGE THAT SUITS YOUR NEEDS

PRECISION ENTRY FM-750™ LITE

- Simple, robust display
- Clear 20cm display + 27 LED lightbar
- Upgradable to autoguidance and application control

PRECISION PRO FM-750™ + EZ PILOT™

- Lowest cost auto steer solution
- Platform kits available to fit most makes and models (Platform kit not included in the bundle)
- Upgradeable to all levels of accuracy

PRECISION EXPERT XCN-2050™ + AUTOPILOT™ + FULL RTK

- 12.1" High resolution android based display
- High performance steering
- Upgradeable to all levels of accuracy
- Compatible with most makes and models

PRECISION MASTER 372 RECEIVER + NAV CONTROLLER III + RTK MODEM

- 372 receiver unlocked to level 3 - RTK
- NAV Controller III
- GX-450 RTK MODEM
- Perform on the world's highest accuracy correction signal, delivering $\pm 2.5\text{cm}$ year-to-year accuracy for all your precision farming applications.
- Enhance your productivity in the field to the maximum level
